

## Snow Compaction For Game Parking Gets Official Nod

### Commission Votes To Rent Post Office During Olympics

Meeting at Squaw Valley Friday, the California Olympic Commission passed a resolution supporting the VIII Olympic Winter Games Organizing Committee's action in adopting a snow compaction plan for spectator parking in the valley during the games in February next year.

The action was taken only after a lengthy report, prepared by Arthur Jenkins, consulting engineer for the committee, indicated that the snow compacted parking area had a 90 percent chance of working successfully.

It has the same chance of being successful, the report indicated, as the chances for the events to be held.

The only dissenting vote was cast by Walter M. Barrett, the Truckee member of the commission, who has opposed this method of parking since it was first suggested more than two years ago. Tests have been made by the navy during the past two winters with only moderate success. However, Jenkins told the commission, these tests have proven that with further meadow draining and other technical details, snow compaction will solve the parking problem.

Transportation Director Martin Blatt advised the commission he had contacted the division of highways and highway patrol and had been told that road-side parking, such as was used during the trial games last February, will not be permitted. Blatt was instructed to continue his efforts to locate suitable alternate parking in event the snow compaction plan fails during the period between February 18 and 28, the scheduled dates for the games.

Voting in favor of the snow compaction were Commissioners A. Andrew Hauk of Los Angeles, Harold Berliner of San Francisco and Sterling Cramer of Yosemite. Chairman Charles R. Blyth of San Francisco presided at the meeting.

In other action, the commission voted to lease one room in the reception center to the government for a post office during the first three months of the year. The office will be handled by Postmaster Oliver Corona of Tahoe City and will be known as Olympic Valley.

Prior to the meeting, members of the commission made a detailed tour of the facilities and were advised that work is well up to schedule and will be ready in advance of the deadline date. Press representative Gordon Butterfield and Plant Superintendent Tim Sullivan explained the work progress to the commissioners.

After the meeting the group went to Tahoe Tavern for luncheon.

### FIREWORKS WILL BE SHOWN AT TAHOE

Al Henry, chief of the Tahoe City Volunteer Fire Department announced that they are sponsoring the annual night display of fireworks, to be viewed by hundreds of residents and vacationers, Saturday, July 4, at Tahoe City Commons.

The event has become a part of the community's Independence Day celebration, anticipated by children and adults.

### Mountaineers Keep League Lead With Win From Babbitt

by JOHN FIRPO  
Back-to-back doubles by Ernie Pello and Bill Campbell in the bottom of the ninth inning enabled the Truckee Mountaineers to break a 2-2 tie and go on to their fifth victory in six starts this season. The run came after Babbitt second baseman, Larry Georadana had tied the game in the top half of the ninth on a home run over the left centerfield fence with no one aboard.

The win kept the Mountaineers in first place with Verdi who beat Fallon Merchants 9-3 last Sunday. This coming holiday weekend Truckee again will be home this time on Saturday and Sunday. Saturday they host Verdi in a game to decide who will keep the Sierra-Nevada League lead. Sunday they play Desert Admirals of Fallon. Both games should prove quite exciting and hard-fought and will begin at 2 p.m.

Truckee started the scoring in their half of the first frame when leadoff man Gordy Stewart was on by virtue of an error; L. J. Robinson then stepped up and punched a single to score him after the lat.

### Sale of Hill Top To Capital Man Gets District Approval

#### Stipulation Provides Area Be Used Only For Recreation

Harry and Zella Herzog of North Sacramento were the only bidders for the purchase of the Hill Top property offered by the Truckee Public Utility District with a bid of \$51,000, which price included a \$10,500 back tax lien, giving the district approximately \$40,000 for the 70-acre tract.

The terms of the sale were approved by the board of directors at Tuesday's meeting, Manager Daven Morey announced.

Under terms of the sale, the land can be used only for recreational purposes and work is starting immediately, Morey said on a new Pomo ski lift and a 100-unit dormitory which will be completed by this winter to permit its use during the coming winter season. The long range program, it was announced, includes a number of other recreational facilities.

Sponsors of the project are convinced that this new area which adjoins the golf course and baseball diamond, now under construction, will provide the Truckee area with an ideal year-round recreation center.

The proposed new airport is also adjacent to the center, adding still further to its value.

Work of demolishing the Crandall Brothers Mill, which was included in the sale, has begun.

Eugene Stark is the new manager of the property at Hill Top. Herzog is a motel owner and real estate man.

### FOREST OFFICIALS IN INSPECTION OF AREA

Visitors to the Truckee area last week included Charles A. Joy, assistant chief of the forest service in charge of range management; Boyd L. Rasmussen, multiple use specialist from the Washington, D.C., office, and Reginald M. DeNio, assistant regional forester from San Francisco.

The visitors were taken on an inspection tour of the eastside grazing lands by the Tahoe staff grazing officer, Ralph Lessel, and District Ranger Roy Saarni. Included in the tour were last fall's large sagebrush spraying and grass reseeding project in Kyburz Flat, revegetation project on power line and road clearing projects, sheep water developments, bitterbrush areas infested with tent caterpillars, and grazing management practices on the districts extensive range lands.

These lands support about 24,000 ewes and lambs and 1200 cattle under forest service permit.

### Fireworks Rules In Forest Listed By U.S. Forest Service

The discharge of fireworks on the National Forest has always been illegal and its enforcement will still be strictly enforced. In addition to this regulation the State of California has enacted new legislation under the health and safety code which governs the sale, possession, discharge, display, or transportation of fireworks on private land.

Section 12600 of the health and safety code states: No person, without securing a permit shall do any of the following: (a) Possess or sell any fireworks at wholesale or retail for any use. (c) Make a public display of fireworks. (d) Transport fireworks, except as a public carrier.

The application to the local governing agency to do any of the above shall be made in writing at least 10 days prior to the use of the fireworks. This required written permit under this section shall not be confused with the license that is granted by the state fire marshal to handle the fireworks.

The sale of fireworks of any description is prohibited except for the period from 12 noon June 28 to 12 noon July 6 of any year. (12703—Health and Safety Code.)

Section 12755 requires written permission to discharge any fireworks in forest, fallow, grass or brush covered land. These permits will be issued with restrictions within the town of Truckee. Permits for use of fireworks on land outside of Truckee will not be given due to the present extreme fire danger.

The violation of any of the above rules is a misdemeanor punishable by a fine of not less than \$500, nor more than \$1000 or by imprisonment in the county jail for not more than one year or by both such fine and imprisonment.

### NEW TEACHERS WILL SERVE ELEMENTARY

With the elementary grades moving into the new building west of town this fall, Principal Weston Sauby announces that four new teachers will be added to the staff for the seventh and eighth grades.

These grades previously have been a part of the high school, but the new school makes it possible to return them to the elementary school.

Miss Jean Kessy, who has been on a trip through Europe for the past year, is returning and will teach in the fourth grade, Sauby announced.

Norman Handy, a science major from Chico State, has arrived with his family and will teach in the seventh grade as will Ralph Johansen of Oroville, whose family has also arrived here. Ronald Schwinn, a teacher in the high school, will teach the eighth grade during the coming year.

Sauby said there is still one vacancy on the elementary staff to be filled.

### SALE OF TAHOE VISTA PROPERTY REPORTED

TAHOE VISTA—C. S. (Butch) Beavers, well known Lake Tahoe real estate man, reports that the Lake Tahoe Land Development Company, of which Howland W. Smith is president, has revealed the purchase of 18 acres of land located in the Tahoe Vista area. The purchase price was reported at \$102,500.

This land has been subdivided, Beavers said, into de luxe and multiple apartment, motel and hotel building sites. The new development, known as the North Tahoe Subdivision, is served by all-year paved roads, water, sewer and power. It has a public beach and is located near shopping centers, golf course and theaters.

Beavers of the Burton Washburn Realty, Inc., represented both buyer and seller in the transaction and has been appointed to handle the sale of their new subdivision. Twenty-three building sites are now available, Beavers said. A de luxe apartment project of 120 units is being planned for a portion of the new subdivision.

### District Votes To Form Recreation Area In Truckee

#### Work Is Continuing Here To Develop Baseball, Golf Facilities

At an adjourned meeting of the Truckee Public Utility District last night, it was unanimously voted to form a Recreation Utility and to apportion the approximate \$10,000 profit from the sale of Hill Top property to further develop the area for all recreational purpose. A petition signed by 229 property owners, favoring the area, was offered in support of the request from members of the Truckee Recreation Committee.

Work is progressing on both the new golf course and new baseball diamond, Mrs. Betty Kiehlhoff, secretary of the Truckee Recreation Committee, announced.

Sunday three inmates of the local jail turned out to give help on the project, removing the loose gravel from the diamond. The truck was donated by E. Moore, contractor, working on the high school addition.

Three members of the baseball club, Bill Campbell, Al Wakefield and Andy Garcia, were also on the job staking out and measuring the field. Other volunteers included Jack Ellis, Jim Souter, Lauren Russell, Mike Ellis, Eva Besio, Ruth Goss and Betty Kiehlhoff.

Refreshments were donated by the Truckee Mercantile, Eve Hallett and Ruth Goss.

Sunday a large crew with cross cut saws is needed to trim trees left standing on the fairways. Any one wishing to be included in the lunch or refreshments should contact Eva Besio or Mike Ellis.

### Nevada Votes Fund To Aid In Olympics

The Nevada State Olympic Commission Monday voted \$163,000 to complete the Nevada Olympic Center building at Squaw Valley—at the same time withholding \$37,000 to improve the skiing facilities at Slide Mt., official alternate site for the giant 1960 Winter Olympic Games.

The Nevada Commission, in voting funds to complete the Nevada Olympic Center on California soil, pointed out that the \$163,000 added to a previously okayed \$200,000, fulfills a commitment to erect the building—in the spirit of partnership with California in promotion of the 1960 Winter Olympics.

The \$37,000 was withheld, following a heated plea from Bill Berry, long-time supporter of Slide Mt. skiing and member of Governor Grant Sawyer's advisory committee to the Nevada commission.

He suggested that \$163,000 be appropriated to complete the Nevada Olympics Center, that California expand the previously committed \$29,000 for Slide Mt. improvements and that Nevada hold onto \$37,000 for permanent type installations for proper expenditure of the \$37,000.

Berry, upon hearing California Olympic officials say that only \$29,000 was to be spent on Slide Mt. as a minimum requirement to prepare it as an emergency alternate slope, declared:

"The youth of Nevada are entitled to something on this mountain in the name of honor, integrity and in the spirit of the Olympic games."

"What this commission does may set a pattern for public recreation in western Nevada for the next 100 years," Berry added that the Olympic improvements at Squaw Valley will later be used by California as a state park. "Nevada, too, should benefit," he said.

Mrs. Russell told the sheriff's office her husband left home to drive to Squaw Valley and to Baxter. When she learned he had not shown up at either place she reported him missing to the sheriff's office. She told the officers he was carrying between \$200 and \$300 in union funds.

Russell was the victim of a strongarm robbery three months ago when he was struck on the head at the union hall in Kings Beach and the assailant fled with approximately in union funds.

## West Shore Notes

By NINA SLADE

by NINA SLADE

Eugene E. Ward from North Sacramento is a new deputy sheriff in the El Dorado County, and the family will live in Tahoma.

Guests of Mrs. Mary A. Johnson at her lakeside home in Tahoma are her son and his wife, Mr. and Mrs. Lloyd A. Johnson of Walnut Creek, and Lloyd, Jr., Mr. and Mrs. Ted Wheaton and daughter, Kathy, also of Walnut Creek are in the party.

Seems like old times to see Sheila and Judy Fanger jeeping around together again. Sheila's vacationing after her first year at U.C. Al and Doreen Fanger are mighty glad to be a foursome again.

Truman Sunkel of Tahoe Pine Lodge has nearly completed his handsome new home-office building on Highway 89, just at the edge of his resort property.

Mrs. Thomas Killfoile and son, Allen of Palm Springs, are expecting Mr. Killfoile at their Tahoma place just after July 4. Allen, though only 12 years old, is busy at watering jobs.

The F. W. Ackermans have opened their home at Tahoe Pines.

The Lloyd Carters of Orinda are busy putting finishing touches on their Tahoe Cedars Tract home.

It's music, music, music at the West Shore Lodge, Homewood. Three Oakland musicians and their families purchased the former Callender's Lodge and have been painting, refurbishing and hammering away to get the lodge in operation. Weldon Pollard, Betsy Cirimele and Gordon Minor provide music, food, dancing and a cocktail lounge, as well as cabins. It's soothing and restful for the appetite to dine with organ music as played by Bill, and when the combo gets together the dancers swing and sway.

Friends and neighbors of Bob Campbell, Tahoma, were sorry to learn of his mother's death on July 10 in Los Angeles. Bob is her only survivor. Mrs. Dawson was buried in Forest Lawn Cemetery, Glendale.

The Robert A. Iveys of San Jose say their vacation at Tahoe a few years ago was the most expensive they ever took. Seems Tahoe captivated them and since that vacation they've been busy building a house in Rubicon properties. Just about finished now and they're settling in to enjoy it.

### INDIVIDUALS URGED TO AID IN ACCIDENTS

"The California Highway patrolman who watched a fatally injured seven-year-old boy being loaded into an ambulance while his parents, two sisters and a baby brother lay already dead on the highway and in their crashed car knows too well the tragedy that can result from one violation of a traffic law."

So said Bradford M. Crittenden, commissioner of the California Highway Patrol, today in appealing to individual motorists to accept their responsibility in the fight to reduce highway accidents.

"That entire family was wiped out simply because one man failed to stay on his side of the road-way," Crittenden continued. "The erring driver was killed also, so we may never know exactly what caused him to swerve across into the path of the oncoming car. But whatever the cause, the fact remains that seven persons are dead because of a collision that need never have happened."

"The California Highway Patrol is constantly on the alert for accident causing violations, and so far this year have made half a million arrests. But it cannot possibly be

at the scene of every traffic violation and it cannot prevent every accident. The responsibility of preventing accidents rests with the person behind the wheel, and until each one of us individuals accepts our responsibility we cannot expect the other fellow to accept his."

Mr. and Mrs. W. R. Tiffany of Stockton have returned to Homewood to enjoy fishing and coolness of the lake. Tiffany began coming here for the summers in 1907 and has only missed the vacations for a brief time since the turn of the century.

### ACCIDENT CAMPAIGN STARTED AT TAHOE

LAKE TAHOE — The prevention of accidents to the tourists and residents of Lake Tahoe is being seriously considered by a project committee of the Lake Tahoe City Area Council, Committee Chairman Robert McLane of Tahoe City announced. A dinner meeting to organize the Lake Tahoe Safety Council will be held tonight at 7:00 p.m. in the employees' dining room of Harrah's

Stateline Country Club.

"Our committee has invited many interested individuals and also delegates from service or community organizations to attend the organizational meeting," Chairman McLane stated. "However the safety of our communities is not solely the business of a select few. We hope everyone interested in a safe Lake Tahoe will plan to attend this meeting and assist in the development of our organization."

"Development of a lake-wide safety organization has been a project of the Lake Tahoe Area Council for several months. A project committee has studied several organizations, sources of program material and different areas for accident prevention," McLane said.

The Lake Tahoe Safety Council, incorporated several months ago by a group of Lake Tahoe residents and Joseph F. McDonald, president of the Nevada California Lake Tahoe Association; has the basic program of safety needed on the lake, in homes, on the job as well as road hazards, an area council spokesman said. The council project committee is recommending adoption of the safety council at the meeting Thursday. The area council will continue to assist wherever possible, the spokesman added.

### INFORMATION READY FOR SMALL BUSINESS

TAHOE CITY — Local chamber of commerce officials announced today that complete information is available describing the new Small Business Administration loan program.

Under sponsorship of the Lake Tahoe South Shore Chamber of Commerce and the Lake Tahoe Sierra Chamber of Commerce, the SBA is conducting a series of personal interviews which will be preceded by a public meeting at the lake to explain its new liberalized loan policies. The Lake Tahoe Area Council is assisting the chamber on this project.

North and west shore businessmen interested in obtaining loans can be interviewed on June 29 at the council office, Highlands Office Center, Tahoe City. On June 30 interviews will be conducted with south shore businessmen at the Lake Tahoe South Shore Chamber of Commerce, Al Tahoe.

Chris Kurausa, president of the south shore chamber, pointed out that it is important for applicants for an SBA loan to have at least an idea of the basic SBA policy on its loan program before their interviews. He stressed these facts:

"SBA's general credit requirements are similar to those of any reputable private lending agency. The amount which may be borrowed from SBA depends on the individual case; however, the usual maximum loan the agency can make is \$350,000. Loans are repayable in regular installments, including interest on the unpaid balance, and may be repaid at any time without penalty," Mr. Kurausa said.

SBA financial specialist George Fratis will explain the general provisions of the program at a public meeting starting at 8:00 p.m. Sunday, June 28, at Homewood Resort. Data on making application for loans and interview appointments can be received at either chamber office.

### RABIES WARNING IS ISSUED BY DEPT.

BERKELEY — The state health department today warned campers against sleeping on the ground in open areas where rabies exists in wildlife without adequate protection against attack; especially from skunks.

Dr. Malcolm H. Merrill, state health director, said that five Sacramento area Boy Scouts were exposed to rabies infection this spring when a rabid skunk invaded their campsite near Michigan Bar, and that similar incidents are reported each year.

In 1954, according to the di-

### SERVICE STATIONS AT SQUAW DOOMED

AUBURN — County planning commissioners late Friday offered strong objections to plans to establish two service stations in the Squaw Valley area on the ground the structures would violate a master plan for the area.

The commission turned down an application by the Associated Oil Company to establish a station on State Route 89 at the entrance to the valley.

Commissioners pointed out the proposed location on land owned by Wayne Poulsen would place the station in the center of a 200 foot buffer strip which the master plan provides to screen off commercial activities at the valley entrance.

The commission also directed a letter to Olympic officials pointing out their proposal to lease an area for a Union Oil Company service station in the valley next to the Olympic Village violates the master plan.

Olympic officials had notified the county planning department they negotiated a lease with the oil company.

rector, a woman and her husband were attacked twice during the night by a small spotted skunk while sleeping in a tent in Tulare County. The skunk was killed the next morning, and proven rabid on laboratory examination. The Woman, who was bitten twice, later died of rabies.

Dr. Merrill suggests that campers sleep off the ground and in a tent which can be tightly fastened to prevent invasion by animals. Or, he added, it might be feasible, if sleeping on the ground in the open to stake out a low fence made of chicken wire.

Skunk or other wildlife rabies cases have been recognized, or cases in domestic animals have been recognized with wildlife implicated as a possible source of infection, in 41 counties. None, however, have been recognized above the snow line in the mountain counties.

Counties where cases have been recognized are: Humboldt, Trinity, Mendocino, Lake, Sonoma, Napa, Shasta, Tehama, Glenn, Butte, Colusa, Sutter, Yuba, Yolo, Sacramento, Marin, Solano, Contra Costa, Alameda, Santa Clara, Nevada, Placer, El Dorado, Amador, Calaveras, Tuolumne, Mariposa, San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, Santa Cruz, Monterey, San Benito, San Luis Obispo, Santa Barbara, Ventura and Los Angeles.

In California from the first of the year through June 15 there have been a total of 64 cases of rabies reported in animals, of which 44 were skunks, three in foxes, 11 were bovine, two in horses and one each in a cat, dog, bat and racoon.

### RECKLESS DRIVING CAMPAIGN IS OPEN

State Motor Vehicles Director Robert McCarthy today applied tighter clamps in his reckless driver campaign in an effort to cut the traffic death toll during the Independence Day holidays.

"Every person arrested for drunk driving after July 1 and subsequently convicted, will have his license suspended for at least six months," McCarthy announced.

"The minimum six months' suspension," McCarthy said, "will apply to first offenders, who in the past have been escaping with light suspensions, or none at all."

"A public highway is no place for a drunk," the motor vehicles chief declared.

McCarthy pointed out that during the recent Memorial Day holiday period, 27 persons were killed in accidents on California highways.

"Seven of those 27 deaths occurred in accidents directly attributable to driving while under the influence of liquor," McCarthy warned.

"It is becoming more and more obvious that drastic action is the only answer to our traffic accident problem. We are going to get progressively tougher in our dealing with drunk and reckless drivers."

### A little fatherly advice from your Uncle Sam

(for June graduates  
and their proud kinfolk)

Sometime this spring you'll step forward and pick up your diploma.

If you live to be 90 it'll still be one of the biggest days in your life.

Suddenly you'll have grown about a foot—and aged some too. For the first time, you'll really be going forward under your own power.

Where to? What next?

Where you go in this world depends largely on how badly you want to get there.

There's never been as much opportunity for you to "go places" as there is today. (Just ask your folks if I'm not right!)

But remember: opportunity is impatient. You've often heard people say sadly, "If only I'd had cash to take advantage of the opportunity..." They didn't. And the opportunity faded.

You be ready with ready cash. Save money every payday. There are lots of good places to save—but none better than U. S. Savings Bonds. They're safe, sound, easy to buy at any bank. Buy 'em through Payroll Savings, and it's automatic!

And that's not all. Every Bond helps strengthen America's Peace Power. Your savings become an investment in your peaceful future. So take a little fatherly advice from your Uncle Sam. Start a good habit now. Start buying Bonds—and keep at it! Good luck.

Help strengthen America's Peace Power

We received a nice letter from Wally and Mary Skaggs who are now living in Buffalo, Iowa. They still take the Sierra Sun and really enjoy reading all the news of their former beloved home, Lake Tahoe, and say they will never forget it. Robbie Robinson and his son, Michael, have gone down to Los Angeles where Robbie's father is quite ill. We hope he will return to good health soon, maybe seeing his son will help.

Gwen Robinson, who is secretary

for the chamber of commerce and also my able court secretary, says if you can't go and see the big league baseball games you should go over to Truckee most every Sunday and watch the great team of the Mountaineers play. As you know Gwen and Robbie's son, Craig, is the up and coming star player. Seems as though all the big league teams are after him these days. We are all mighty proud of him.

### CONGRATULATIONS

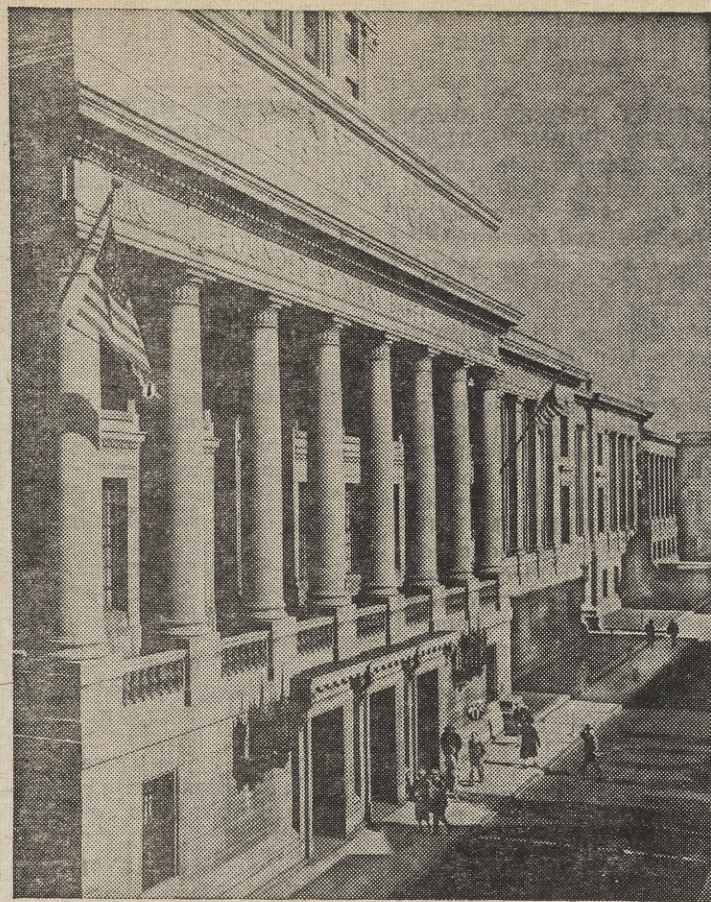

Congratulations to Rev. Earl Langguth on his reappointment as minister of the Wee Kirk of the Pines. He is certainly doing a wonderful work. Let's attend whenever possible.

### ROADS

Many of the side roads around Kings Beach are being oiled and sanded and quite an improvement can be seen. The Brookway hill has been cleared of some of the rocks and along the side making it a wee bit better. We hope it won't be long until one stretch of the Truckee shortcut will be surfaced, parts of it are a beautiful highway and a pleasure to drive over after many years of jarring the nuts and bolts out of our cars.

### FAMILY HOME

Diana and Maurice (Lem) Lemke with their ten-month-old son, Mark, are spending a week with Diana's mother and dad, Wilma and Byron Abbott. Diana and her husband drove from Sumner, Wash., where they are living. Diana's sister, Jackie, came up from Reno with her little three-month-old son, Wilma, and Byron had a wonderful time with their two little grandsons. They sure are cute and a happier family could not be found.

### OLD TIMERS

Bill and Gwen Harling, former residents of Kings Beach and now living in Reno, were up for a couple of days. They hope to work something out whereby they can return to the lake permanently.

Sunday Evening 7:30 p.m.

The ladies who enjoy Bible study and fellowship each Wednesday at 12:30 are meeting in different homes throughout the summer weeks. Everyone enjoyed the

time together this week in the home of Mrs. Wm. Randall.

Our country was founded by godly men with strong convictions, men who were willing to "contend for the faith." What has caused us to become a materialistic nation? What does the Bible predict for nations that do not honor God?

"Under Sack's leadership eight projects have been launched and three permanent sub-committees activated. Most important of these is the planning committee which is being formed to monitor development and execution of a regional master plan," Lowe stated.

Projects being acted upon include a program to improve fishing in the lake and its tributaries; initiation of a lake-wide safety program; a study of way and means to improve small boat facilities and regulations; sponsorship of visits to Tahoe by representatives of the U. S. Small Business Administration. The latter is the first in a series of programs designed to improve the area's economic climate, and is being coordinated with the local chambers of commerce.

The answers to everyday insurance problems\* By Beverly & Fosten

QUESTION: How long after a fire does an insurance Company pay for loss?  
ANSWER: Most Companies pay just as quickly as they can because of the good will they obtain. However, most of them are required to pay within 60 days after they receive an acceptable proof of loss.

\* If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

# DONNER DOINGS

BY VIRGINIA O' BEAR

Several members of the ladies' auxiliary met at the home of Mr. and Mrs. Richard Walker Monday night to put 2000 Donner Lake Regatta programs together. They will be ready for distribution within a few days to the many merchants and businesses who made the project possible. The ladies present on this project were Mrs. Rex Reid, Mrs. Hank Slack, Mrs. Chuck Baker, Mrs. Virgil Harris, Mrs. Charles O' Bear, Joan Herron and the hostess, Mrs. Richard Walker. Dick was around during the evening and kept serving coffee and refreshing drinks and after the job was over, everyone settled down with a final cup of coffee and cupcakes. Before I left the Walker home I had a peek in

the freezer where Dick keeps that big 20 pounds and 9 ounces mack-inaw that was 38 inches long. I say was . . . because Dick had to cut its head off to get it in the freezer! It is one of the largest fish that I have seen that has been caught in Donner Lake. Dick is mighty proud of his "catch" and now every time he goes fishing with his friends they want him to take them where he got the big one.

We had a celebrity at Donner Lake last Saturday. Movie star Joseph Cotton stopped in at Don-Las Lidge and had one of Ted and Mary Hoskins delicious hamburgers. While there he had Marsh Finch fix him up a refreshing drink before he finally said goodbye to the many people around who asked for his autograph.

Incidentally, if you like lobster thermador, try at DonLac Lodge. I had some there the other evening and it is delicious. Ted Hoskins

really knows how to prepare it. Ted and Mary will be in charge of the restaurant so now we can chalk up another good eating place at Donner.

Sunday I had the opportunity to go around Donner Lake with Mrs. Richard Walker and besides putting up regatta posters and selling barbecue tickets, we met lots of people from California and Nevada who are summer residents now. We met Mrs. Ida Laking from Sacramento and she had as her guests her daughter and son-in-law, Mr. and Mrs. Don Kinnell. Also her granddaughter, Sheri, friends Sue and Janet Sullivan, all of Sacramento.

Laurence Wilcox comes up on weekends to build his summer home in the Week's Tract. He said he would not be up boat race weekend so he donated \$10 to the auxiliary towards the barbecue.

Mr. and Mrs. John Thompson

spend about six months of every year here at their summer home. The other six months is spent at Lee Vining, their home near Bridgeport. Thompson is retired and Mrs. Thompson keeps herself busy up here working in her beautiful yard. She has all kinds of flowers that I thought would never survive up here. She also grows rhubarb and had a rhubarb pie the other day from her own yard.

Mr. and Mrs. Jack Logan were up with their daughters, Colleen and Chicky. They are from San Leandro and Logan was one of the first property owners to get a committee together in 1957 to organize a fire department. He and George Durkes campaigned a lot among the summer residents to get the people together for the first meeting with the permanent residents of Donner Lake.

Mr. and Mrs. William Murphy are here for the summer from San Francisco with their children, Tom, Dan, Nancy and Ed. Tom and Dan work summers at the state park here. Murphy is a lieutenant in the San Francisco Fire Department and works in the salvage corps. He says he appreciates the efforts put into the fire department here by the men and women because that is what it takes to be an efficient operating force.

Mr. and Mrs. Carson Jones are living in their trailer with son Albert and daughters Barbara and Susan for the summer while they build their home. They are from Martinez and like Donner Lake very much.

Mr. and Mrs. Carl Stone are up for the summer and they are from Mill Valley. Talk about a small world . . . I introduced myself and when I said I was Virginia O' Bear, she seemed shocked and asked if I knew a Charles O' Bear who had a cleaning shop in Santa Rosa. I told her that he was my father-in-law so after giving her mom and pop's address, she informed me that she would certainly go see them as she used to go to school with them years ago.

Mr. and Mrs. Charles McFarland and children are visiting Mr. and Mrs. Clarence Kilmer, Mrs. McFarland's parents. They are from Reno and come up quite often during the summer. Also visiting the Kilmers this week are Kathy Gardella and Pam Knudson, from Reno.

Mr. and Mrs. Tom Mickel are up for the summer and they are from Vallejo. Mrs. Mickel sent some of our regatta posters to her home town to be put up to let people in Vallejo know about July 11 and 12. People from all over California and Nevada have been most co-operative and have taken posters to put up in their home towns.

Don't forget that July 8 and 10 are important days to remember because on those two days Miss Donner Lake, Shirley Smith, will be on television along with her princesses and the court. On the 8th, turn on Channel 8 in Reno and watch the Carol Guild show. They will appear around 4:30 p.m. On the 10th of July watch the Millie Sullivan show on Channel 3 from Sacramento. Mrs. Hank Slack will represent the ladies' auxiliary and introduce the girls and tell about the events scheduled for the Donner Lake Regatta.

Do you have your chicken barbecue tickets yet? Be sure to get yours soon so you will get in on it and not be left out! The barbecue will be at the west end of the Donner Lake Beach, so we will look for you.

Mr. and Mrs. Bruce Burns and daughter, Debbie were here last

week from Rodeo visiting the Roy Slates. Mrs. Burns is Mrs. Slate's sister and they had an enjoyable time visiting together.

Mrs. Adolph Hormanski and daughter, Wanda flew in from New York last Wednesday and they are visiting with her sons, Dick, Paul and Dan Horman. The length of her visit will be determined on how well she gets along in the high altitude as she has been quite ill and is recovering.

On Wednesday, July 8 there will be a formal meeting at the I.O.O.F. Hall when the Naomi Rebekah Lodge, No. 2, meets to welcome Thelma Dundas from Nevada City. Mrs. Dundas is the new district deputy president and will be making her first official visit to Truckee since she received her new title. She will present her new instructions and plans for the year.

## Olympic 8-1960 To Be Games Number

The official telephone number of the Eighth Olympic Winter Games makes its debut next month.

The number—Olympic 8-1960—will be published for the first time in the forth coming 1959-1960 Lake Tahoe, Soda Springs and Truckee telephone directory, which goes into the mail July 1.

According to E. J. Bean, Pacific Telephone manager, the new directory features an Olympic theme with a blue cover photo of the site, Squaw Valley, plus winter games facilities in their winter setting.

Bean said the listing will appear on Page 11 of the directory as "Olympic Winter Games Squaw Valley."

Olympic 8-1960 will serve official games telephones. Calls coming into the number will come through Tahoe City, then be switched through a special mobile unit to the Olympic headquarters four-position switchboard.

Bean announced that the Olympics number and cover are not the only things new about the 1959-60 Lake Tahoe directory. This issue will make the books change to a full-size, metropolitan format with four-column pages. The 6,200 copies of the directory which will be mailed Wednesday, July 1 should reach most subscribers by the end of the week.

**DWARFMISTLETOE**

"Several sizable areas are under observation where mature trees are heavily infected. Many trees of all ages have either directly been killed by Dwarf mistletoe or so weakened that they were easy prey to the Mountain Pine Beetle."

Now unfortunately we have here at Lake Tahoe and Truckee more than our share of Dwarf mistletoe and Mountain Pine Beetles. So in order to protect your trees from both, all care should be taken to prune out mistletoe and other parasites that weaken your trees and leave them vulnerable to the beetles.

See your nearest U. S. Forest Service Ranger for advice and permits. And please drive carefully in the forests and protect our wildlife. These little creatures do not understand an automobile as the carcasses along our highways attest.

It takes a long time to grow a tree, and only a little time to protect it.

of the world's mark for outboards at 107 miles per hour.

All in all, this promises to be a very exciting weekend for all. With the tryouts Saturday, chicken barbecue put on by the ladies auxiliary of the Donner Lake Volunteer Fire Department, and a special firemen's ball at Donner Lake Lodge Saturday night. There will be an orchestra and the lodge will be decorated with a Hawaiian theme. People attending the dance are urged to carry out the atmosphere by coming dressed in Hawaiian outfits or calypso style. Sounds like a lot of fun to me and the dance starts at 9:30, time for you to get all spruced up after the chicken barbecue which will be held at the west end of the lake from 4 to 7 p.m.

Sunday, of course, is the regatta and there will be plenty of thrills and we hope no spills. After the race, beautiful trophies will be awarded the winners at Donner Lake Lodge. Also a special trophy is being awarded to Miss Donner Lake and pictures will be taken of her with the high point winner as she presents him with his special trophy.

The Donner Lake Regatta is being sponsored again this year by the Donner Lake Volunteer Fire Department. Races being conducted by the Northern California Outboard Association and sanctioned by the American Power Boat Association.

ter had stolen second. Leading 1-0 going into their part of the fourth, Mountaineer second baseman, Nute Frates and shortstop Ernie Pello combined two singles to place men on first and second with one out. Billy Campbell then responded with another single to score Frates while Pello was out trying to score also on the play.

Babbitt finally got to Craig Robinson of the Mountain Men when Little and Georadana smashed doubles to tally one run and trail 2-1 in the seventh. Going into the top half of the last stanza Georadana walloped Robinson's first pitch into the sky over the fence to tie the contest. The calm fireballer then settled down and retired the side with two Babbitt runners on base. Truckee acted like they didn't want to go into extra innings in the bottom of the ninth; after one man was out Pello smashed a double, Billy Campbell then played the role of clutch man and repeated with another two-bagger to give the Californians the win, 3-2.

Robinson scattered 12 hits in picking up his fifth victory without a defeat while striking out 12 and walking two. The brilliant young high school star has now a total of 66 strikeouts to lead the league in that department.

Sidearmed Swede Olsen of Babbitt was the loser giving up 10 base hits, fanning six while walking none.

**JOHANSON TELLS OF  
VISIT TO EUROPE  
AT ROTARY MEETING**

TAHOE CITY—Harry Johanson, long a law enforcement officer here and treasurer of Tahoe City Rotary Club, supplied the entertainment after lunch at the club meeting at Tahoe Inn on June 23.

Harry described his flight to Sweden over the North Pole where icebergs 1100 feet high were breaking up, and the flight over Greenland.

In Vanersborg, Sweden, where he visited sisters and brothers, Harry observed that there are no nightclubs and liquor can be purchased only at government stores at a price much higher than in the U.S. On his visit to neighboring towns, Harry said he saw no tramps or, highway patrols. There were a few police officers in the towns. There are no slums in Sweden and the people seem to respect the laws of the land. Asked if he saw any of his boyhood girl friends, Harry replied yes and remarked in some astonishment that they were all gray-haired. Harry said he observed the same order and cleanliness of towns and countryside as when he left Sweden 30 years ago.

Attending the meeting were 27 members and 17 visiting Rotarians. Martin Spitsen presided.

**LIONS TOUR PLANT**

IT WAS REAL NICE OF YOU TO ASK US TODAY, STANFORD--WE NEVER SAW A HOUSE LIKE THIS BEFORE!

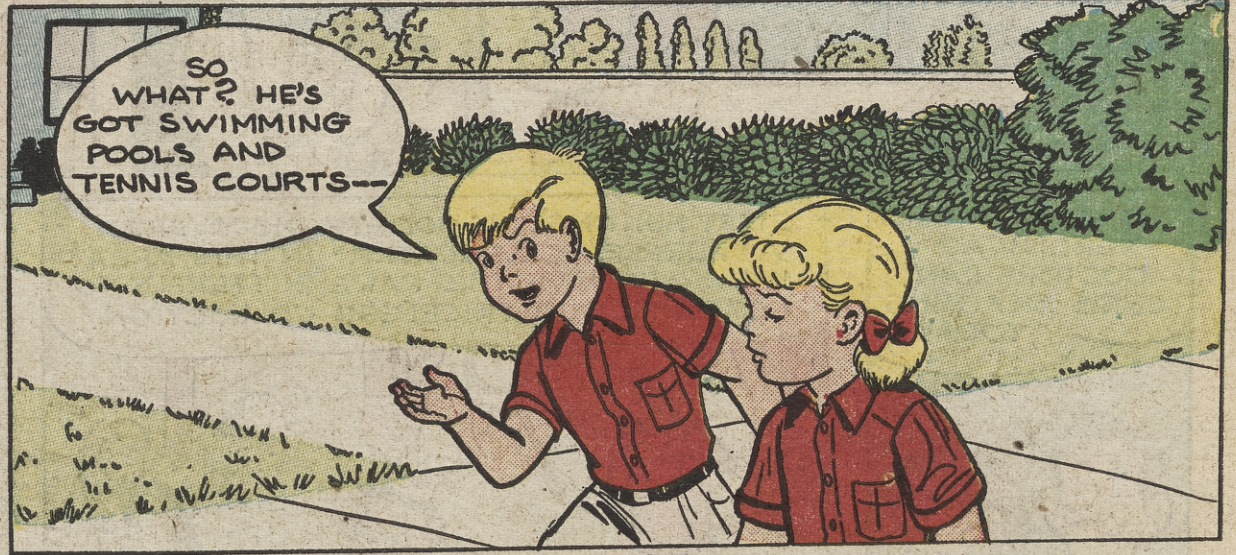

I'M GLAD YOU CAME, PENNY-- THE NEXT TIME WE'LL GO SWIMMING!

GOSH-- THAT SOUNDS GREAT-- WHEN?

I WONDER WHY THEY CALL HIM "POOR STANFORD"? HE'S SURE GOT EVERYTHING!

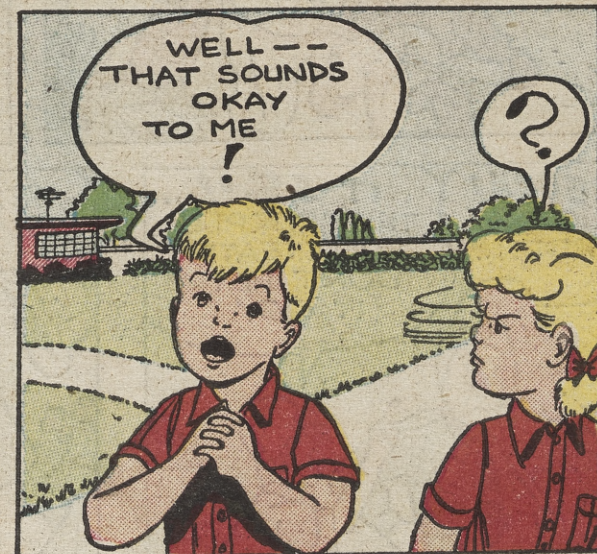

BUT HE'S A LONESOMER-- HIS MOM AND DADDY ARE AWAY ALL THE TIME

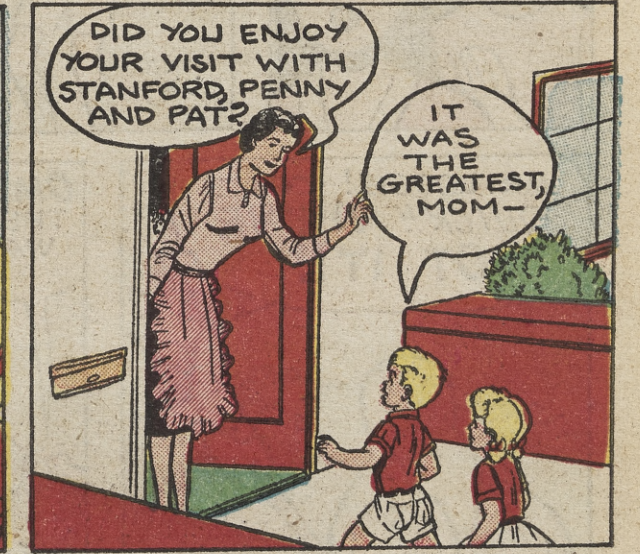

SO WHAT? HE'S GOT SWIMMING POOLS AND TENNIS COURTS--

BUT HE'S GOT NOBODY TO BE WITH-- NOT EVEN A SISTER OR BROTHER!

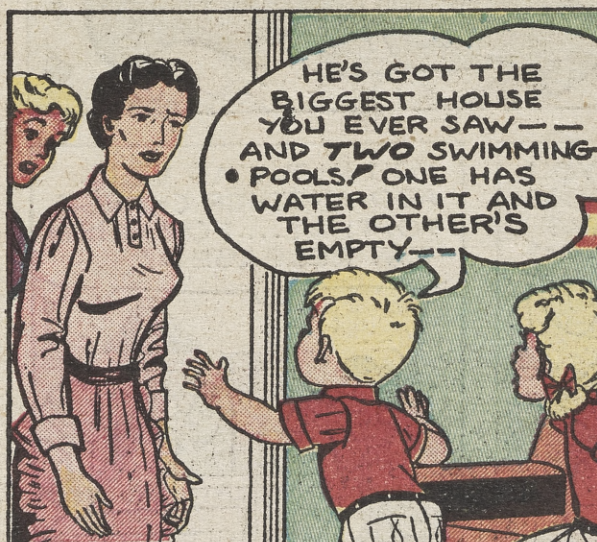

WELL-- THAT SOUNDS OKAY TO ME!

DID YOU ENJOY YOUR VISIT WITH STANFORD PENNY AND PAT?

IT WAS THE GREATEST, MOM--

HE'S GOT THE BIGGEST HOUSE YOU EVER SAW-- AND TWO SWIMMING POOLS-- ONE HAS WATER IN IT AND THE OTHER'S EMPTY--

WHAT'S THE EMPTY ONE FOR?

HE DIDN'T SAY-- I GUESS IT'S FOR PEOPLE WHO CAN'T SWIM!
